Card Reader Errors Frustrating?

Correct misreads with a simple cleaning!

By not cleaning, you risk:

- Embarrassing equipment malfunctions
- Slower transactions and long lines that will frustrate your customers
- Higher transaction fees and potential fraud due to manual entries
- Decreasing employee efficiency
- Increased costs associated with equipment service or exchange
- Making a poor first impression with dirty equipment

Card Reader Cleaning Card featuring Waffletechnology®

This Waffletechnology® Cleaning Card is designed to clean the magnetic stripe reader (MSR) and the read pins located inside all smart card or EMV (chip and pin) card readers. The sensitive contact pins allow communication between the credit card and the card reader. Keeping these card reader contact pins clean is essential to the Point of Sale (POS) equipment's ability to read information from the card. Use this product once per week to help avoid credit card misreads.

Part Number: KW3-HSCB40 | 40 Cleaning Cards per Box
